

# Mode

The Mode is a stylish 5-panel cap that's designed to be branded with your logo and more. The Mode is similar to our [Hex cap](#), except the middle seam at the front of the cap doesn't go down to the visor. This shorter seam length creates a more square-like appearance when worn. Both Photo Printing and Embroidery branding methods are available to you. We can help you decide on the best branding option for your own logo.
